

# Prader-Willi Syndrome Conference

for Families, Teachers, Physicians, Therapists & Friends.

## Who's Presenting?

We have the exciting opportunity of having Dr. Linda M. Gourash and Dr. Janice L. Forster of the Pittsburgh Partnership here in Salt Lake City to conduct a conference on Prader-Willi syndrome.

Drs. Gourash and Forster are world-class experts in both the medical treatment and behavioral management of Prader-Willi syndrome. They frequently speak at national and international conferences and are clinical consultants to the PWSA(USA). The Total Food Security and TRAIN (Tool for Reducing Anxiety, Insecurity, and Noncompliance) methods of behavioral management that they developed and teach have helped many people with PWS and their families.

You will not want to miss this opportunity, whether you are a parent, teacher, neighbor, therapist or friend of an individual with Prader-Willi syndrome!

Important

**When:** Saturday, September 6, 2008 8:00 a.m. - 5:00 p.m.
